

COMPANY PROFILE

Our Company

INTEGRITY | COMPETENCY | SOCIAL RESPONSIVENESS ▶

Lawin Technologies Incorporated started as Lawin Engineering and Management Services in 1994. With its continuing growth and vision, it was incorporated in 1997 covered by Securities and Exchange Commission Reg. No. A1997-21554 and earned its Category “A” Philippine Contractors Accreditation Board License in 1998. Lawin Technologies Incorporated was founded by Engr. Pablito C. Ocampo, a Professional Mechanical Engineer with extensive years of working experience which include 5 years as Vice-President for Operations of a leading materials handling system manufacturer. Engr. Ocampo has vast knowledge on the different aspects of the manufacturing practices as a contractor and has a good working knowledge as an end user having worked for San Miguel Corporation – Beer Division, Seven Up International and Coca-Cola Export.

Lawin Technologies Incorporated holds its head office and shop facilities in a 1,100 square meters at Paxton St., East Fairview, Quezon City. It also has its provincial office and fabrication facility at Orion, Bataan. Additionally, it has satellite offices at Sison in Pangasinan, Canlubang in Laguna and Mandaue City in Cebu. Today, Lawin Technologies Incorporated operates as a General Engineering Contractor that caters to Conveyor Systems, Fabrication Works, Piping Systems, Fire Protection System, Process Equipment Installation, and PLC Systems Integration. Additionally, Lawin Technologies Incorporated is into the maintenance of Processing Line and HVAC systems.

Lawin Technologies Incorporated’s vision is to become a globally recognized company that provides the latest technology in engineering services and solutions, and quality products to meet clients’ satisfaction. Lawin Technologies Incorporated is composed of highly motivated professionals from different disciplines that are driven by a single goal, to provide excellent service to our customers.

Lawin Technologies Incorporated

To be one of the leading General Contractors, abreast with the global technical development, advocate the preservation of Mother Earth, prioritize the upliftment of the Filipino workforce financially, mentally, physically, and spiritually.

Our Products and Services must be rendered and delivered to various industries and valued clienteles, meeting their satisfaction on the basis of quality and timeliness for the best value for their money.

Exercise diligent professionalism, employing local talent and skills, attuned with the latest technology.

Promote respect and responsiveness to ecological balance, energy conservation and teamwork among the workforce.

- Customer Focus - We provide a strong service culture that builds loyal relationships with our customers and a better environment for our employees.
- Integrity - We are fair and honest in all our dealings and adhere to high moral and ethical standards.
- Competency - We consistently look for better ways to perform the job and promote innovation through the application of best practices and the latest technology.
- Sense of Ownership and Accountability - We take responsibility for our work and promptly correct mistakes to the greatest extent possible.
- Environmental and Social Responsiveness - We are committed to contributing to economic, social and environmental sustainability, both locally and globally.

CONVEYOR
SYSTEMS

- Our company can design, supply, fabricate and install conveyor systems based on the client's specifications and requirements. We adhere to the international design standards and testing of our conveyor products. We deliver a wide range of conveyor systems namely; Gravity Roller, Belt, Stainless, Mesh and Flexible. We excel in designing, fabricating and installing food and beverage conveyor systems and also bulk handling conveyor systems (for coal, minerals, grains or bagged with complete accessories from mechanical, civil and electrical requirements). Our company also provides maintenance, repair, and refurbishment services for all types and brands of conveyors.

FABRICATION
WORKS

- We possess the capability to design and fabricate pressure vessels, tanks, silos, assorted metal bins, and containers in accordance with the International and Local Codes. Likewise, we provide repair, rehabilitation, and requalification works. Tank linings or coatings can be applied if required.

FIRE
PROTECTION
SYSTEMS

- Our company specializes in the design and installation of fire protection, detection and alarm systems for new construction, remodeled and retrofitted buildings, commercial and residential. We can work directly for you or through your contractor. We adhere to the NFPA and Local Code design standards in all our design and installations. We secure all necessary permits and offer turnkey installations for all construction projects.

HVAC SYSTEMS

- Our company provides design, installation, service, and maintenance for all types and brands of air conditioning and refrigeration systems in various industries ranging from hospitals, restaurants, offices, hotels, and residences. We also design, fabricate and install ducting and ventilating systems, hoods, and smokestacks.

PIPING
SYSTEMS

- Our company is capable of installing various pipelines i.e. oil, steam, refrigerant, water, and compressed air in the country. We also have the expertise to safely complete any project while maintaining complete environmental compliance.

EQUIPMENT
INSTALLATION

- Our company has the capability to dismantle, haul and install huge industrial machineries and equipment. We can provide the necessary forklift and crane required for lifting and positioning. We also offer low bed and container van transportation for different types of equipment from port to plant and vice versa.

MANPOWER
& TECHNICAL
SUPPORT

- Our company can provide technical manpower to maintain and operate various production processing lines such as food, beverage, glass, powdered products, canning, and automotive. The scope of work varies from the preventive maintenance program, line cleaning, and sanitation to equipment rehabilitation. Required spare parts can likewise be provided as agreed upon.

GENERAL
CONTRACT
WORKS

- Our company delivers the completed projects on time with utmost quality, workmanship, safety, that adheres with the Codes and Standards. We supply labor and materials specified and required by the client.
- Detailed Engineering Design
- Mechanical Works
- Electrical Works
- Civil Works
- Programming and Automation Solutions
- Plumbing Works
- Consultancy Services
